C- Reading

5. Read the following passage, then answer the questions: [5 marks]

Have you ever wondered how you would **grasp** the information taught in class? Our minds and bodies gather information in various ways. Then our minds process that information, organizing it and making connection to things we already know. This process can also work differently: do we think in pictures or words? Do we remember details or the big picture? To sum up, people have different learning styles.

Psychologists have identified some basic learning styles: the linguistic type learns by using language skills: listening, reading, speaking and writing. Logical refers to people who learn by applying scientific principles. The visual type learns by seeing while musical people learn well when information is presented through music. The next type learns best by movement and physical activities. Finally, the intrapersonal learners associate new information directly with their own experiences while the interpersonal type learns well by working with others.

Brain drain, the action of having highly skilled and educated people leaving their country to work abroad, has become one of the developing countries' concerns. Many of **them** are heading for more developed countries, searching for higher wages and better working conditions.

What makes those educated people leave their countries should be seriously considered and a **distinction** between push and pull factors must be made. The push factors include low wages and lack of satisfactory lifestyle. Social and economic unrest may also be determining causes. The pull factors, however, include intellectual freedom and enough money for research.
